KEY PROJECTS

Roomly *Academic / Personal*
Full-Stack Developer & UI/UX Designer

- Developed a centralized web application designed to assist students and young professionals searching for rental properties. Engineered a dynamic proximity feature allowing users to screen listings by selecting a specific school and configuring their preferred travel distance.

SportsManagement

Academic / Personal

Full-Stack Developer

- Developed a comprehensive sports management web platform engineered to streamline administrative workflows for athletic coaches. Programmed core tracking modules enabling coaches to log player attendance records, log total games played per season, and maintain in-depth player statistics.
